Dear Aleksandr:

It is my pleasure to inform you that you have been selected to receive a 2013 Excellence in Economic Analysis Award for your original theoretical work (“Input Joint Ventures in a Differentiated Bertrand Oligopoly: Theory and Application”) and quantitative analysis as part of the Commission’s review of the ACS/GCI transaction.

Your work exemplifies the high-quality, creative economic analysis that the Commission needs in order to understand how the telecom/media sector operates and to make policy decisions that advance the public interest.

Congratulations on your accomplishment, and keep up the good work!

Sincerely,

Mignon Clyburn
Acting Chairwoman
